Using state of the art software and technology, we can bring your memories to life.

Stretching and bars

All our canvases are stretched over premium quality bars, this is all included in the price along with a choice of edge finishing.

Gallery Wrap

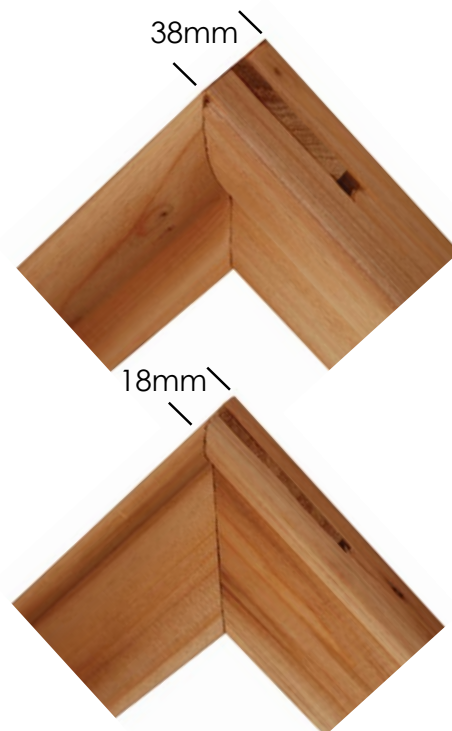

This is when an image is to be stretched around the width of the frame too.

Standard Wrap

This is where the image is printed just on the face the canvas has white edges.

Frame depth

The frame depth is also something to consider: 38mm or 18mm. This is the distance from the front of the printed canvas to the wall
